Caiman Versa is a game changer when it comes to lighting solutions. This product is designed to provide maximum choice and reduce the need for stockholding, making it a great option for those who need to quickly and easily install lighting systems in a variety of settings. The full length mounting slider ensures that this product can be installed in virtually any position, while the Versabox plug and play kit range means that it can be customized to meet the needs of any project. The quick release terminal block makes wiring fast and easy, while all installation points are clearly marked on the outside of the luminaire to aid in accurate pre-drilling. Additionally, the BESA mount accessory (ACBESA) is sold separately for even more flexibility. Whether you're looking for a quick connect through-wired version for side entry or a more traditional installation, Caiman Versa has everything you need to get the job done quickly and efficiently.
